Portfolio: <http://www.rachelhanna.me/>

(206) 355-5475 hannarv2@gmail.com

Web Developer with a passion for solving intricate problems and creating complex Node and MEAN stack apps. I particularly enjoy designing well-structured apps and database schema. Previously I studied Greek and Latin in grad school, and am now turning my language acquisition skills and critical-thinking ability towards programming.

TECHNICAL SKILLS

Languages

- JavaScript
- HTML/CSS
- Ruby
- Python

Frameworks

- Node.js
- Express.js
- Rails
- Angular.js
- React.js

Database Tools

- PostgreSQL
- SQL/Sequelize
- MongoDB
- Firebase

Libraries

- jQuery
- Bootstrap
- Bcrypt, Passport
- Materialize

Other

- Git/Github
- Heroku
- AWS S3
- Docker

PROJECTS

Meditate Now - MEAN stack app to play guided meditations

- Find curated guided meditations based on current emotion
- Timer for non-guided meditation
- MongoDB, Express.js, AngularJS, Node.js, AWS S3, mongoose.

ReadMe - full stack app that digitizes the bookclub experience

- Search for books and add to favorites or books to read lists
- Create and join bookclubs, add topics and comments
- Ruby on Rails, OAuth, Bootstrap, Parallax, Google books api

Flixxr- full stack social app for finding streaming video

- Supports local user authentication and Facebook login
- Search for platforms where shows are streaming, add shows to favorites and follow other users.
- Node.js, Express.js, Sequelize, SQL, Guidebox api, JavaScript, Materialize

Particle- front end browser game

- Single and multi-player functionality
- JavaScript canvas animations, jQuery, HTML, CSS

PROFESSIONAL EXPERIENCE

Keyventer Web Developer // October 2016 – present

Front-end work in JavaScript, HTML, CSS, and angular.js, building an event planning marketplace.

Mercutio Contract Web Developer // May 2016 – present

Front-end work in JavaScript, HTML, CSS, and jQuery. I updated responsive website based on design specs, added jQuery animations and maintained expressionengine e-commerce websites by fixing bugs and implementing new features. I also revised website for ADA compliance.

Vehicle Datalytics Web Developer // Jun 2016 – July 2016

Coded MEAN stack app and implemented map display with Google maps api.

General Assembly Web Developer // Jan 2016 – Apr 2016

Web Development immersive program with 500+ hours of instruction focused on building full stack apps using Ruby on Rails, Express.js, Node.js, React.js and Angular.js both individually and collaboratively using Git/Github for source control.

Northwest Trustee Services Team Lead // Mar 2009 – Oct 2015

Saved the company money by designing workflow to comply with statutory changes that improved accuracy and efficiency. Point of contact for information and process.

EDUCATION

University of Washington, Seattle

Completed 100+ credits towards doctoral degree in Classical Languages

University of Colorado, Boulder

Masters of Art in Classical Languages, May 2002

Baylor University, Waco

Bachelor of Art in Classical Languages, May 2000
